Day #2: "Venetian Wonders"

Morning Arrival at Marco Polo Airport, Venice Italy

After collecting our luggage and going through customs, we will wind our way through the majestic water canals of Venice by private boat. The trip to our hotel is a scenic orientation to this magical city built upon water.

Hotel Arrival.... Check in Time is usually between 12:00 PM - 1:00 PM.

Drop our baggage off, sip a much-needed cappuccino, general orientation to our neighborhood and the day's plan. Once our rooms are ready we will return to the hotel to shower and unpack.

Pranzo! (Included Light Lunch)

A.) Departure for St. Mark's Square

St. Mark's Square is the center-stage of Venetian life, and is crowned by St. Mark's Basilica. While it is large in size and grandeur, the Piazza San Marco maintains a feeling of coziness with its cafes, dueling musicians, and children of all ages chasing pigeons. While we are in Piazza San Marco we will see...

B.) St. Mark's Basilica – Exterior

This is a real blend of world culture: Byzantine mosaics, Romanesque archways, French Gothic pinnacles, Muslim-shaped onion domes, columns from Alexandria, Capitals from Sicily, and carvings from Constantinople.

C.) The Clock Tower (Torre dell' Orologio)

Two bronze African Muslims stand high above the tower, with their mechanical mallets that swing every hour. The clock dial shows 24 hours, and above the dial is the world's first digital clock those changes every 5 minutes.

D.) The Campanile

Originally dating back to the 10th century, this is Venice's original lighthouse and bell tower. In 1902 it toppled to the center of the square but was rebuilt 10 years later.

E.) The Bridge of Sighs

The Venetian government meted out its justice from the Doge's Palace. Prisoners that were sentenced crossed this covered bridge to the prison: A final view of sunny, glorious Venice! Tradition says that you could hear the prisoners sighing along the way...

F.) St. Mark's Basilica: A Church, a Cathedral, and a Basilica in One!

One of Europe's most celebrated churches and the final resting place of St. Mark the Evangelist. Our eyes will feast on a bedazzling riot of domes, columns, statues, gold mosaics, colored marbles and oriental treasures.

G.) The Doge's Palace – Exterior

Originally built in the 9th century, today the palace is a fusion of Italian Gothic with an Islamic flair. Each Doge (or duke) left his mark on history by supplying new decorations for this awe-inspiring work of architecture.

Day #13: Mt. Vesuvius, Pompeii and Rome

Continental Breakfast

- A.) Hotel Departure
- B.) The Ruins of Pompeii

A private mini-van will take us to Pompeii, which was first occupied in the 8th century BC. A private tour guide will teach us how the Etruscans first dominated the surrounding region, then later came the Saminites who turned Pompeii into a Greek town. Finally the Romans gained control over Pompeii until its end... that fateful day in 79 AD when Mt. Vesuvius unleashed its fury on the 20,000 inhabitants of this thriving Roman city.

Although this tragic event ended the lives of 20,000 Pompeian residents, the ash that buried the town served as a sort of *mummification* for the entire city. The eruption of 79 AD which buried the city in ash actually captured a special moment in time. Under the ash everything remained as it was at the time of the eruption. Artwork was preserved. Buildings were preserved. Several important clues were left behind. These clues give us a glimpse into the past that will not be soon forgotten.
